

MUHAMMAD NA'IM BIN MOHAMMAD HATTA

Software Developer

Cyberjaya, Selangor • 017- 6013098 • mnaimhatta1@gmail.com • <https://linkedin.com/in/naim99>

PROFESSIONAL SUMMARY

Results-driven software developer with nearly 4 years of experience developing enterprise web applications using C#, .NET Core, VB.NET, SQL Server, JavaScript, and jQuery. Experienced in banking, insurance, and government-sector projects involving system modernisation, eInvoice integration, API development, reporting solutions, and production support. Strong background in Agile development, database optimisation, and full-stack web application development. Currently expanding my backend development skills in Java Spring Boot and cloud technologies while continuing to build enterprise applications using the .NET ecosystem.

EXPERIENCE

Software Developer | **AppFuxion Consulting** | Bangsar, Kuala Lumpur *Jan 2025 – Present*

- Originally hired via Ethereal Digital, transitioned to AppFuxion Consulting (sister agency) in 2025 and continued development of the same projects across both entities.
- Collaborated with 4 developers to migrate an existing banking system from VB to VB.NET using the Agile practices, reducing front-end code complexity by converting legacy JavaScript to jQuery and improving SQL stored procedure performance through query optimisation.
- Migrated Crystal View Reports to SQL Server Reporting Services (SSRS), improving report generation performance and maintainability.
- Collaborated with 3 developers to build a new insurance product website using .NET Core, Razor Pages, GitHub, and SQL Server; delivered on schedule and provided post-launch production support.
- Investigated production issues, implemented enhancements, and worked closely with users to deliver timely resolutions.

Software Developer | **Ethereal Digital** | Bangsar, Kuala Lumpur *Jan 2024 – Dec 2024*

- Designed and developed an eInvoice feature for an Insurance Product Portal covering 30+ products, integrating with the company's in-house eInvoice Gateway via REST APIs (C#, SQL Server, jQuery, Postman, GitHub).
- Led a 3-person team to upgrade the portal to meet LHDN eInvoice compliance requirements, delivering within the regulatory deadline.
- Built a Node.js dummy Rest API to simulate the LHDN eInvoice endpoint ahead of the official release, unblocking parallel development for the team.
- Provided end-to-end production support post-launch, resolving integration issues and client change requests.

Software Developer | **ALAMI Technologies** | Cyberjaya, Selangor *Aug 2022 – Dec 2023*

- Developed an Asset Management System from scratch using .NET Core, GitLab and MSSQL, integrating GIS technology for real-time asset tagging; product sold to government agencies and construction companies.
- Built an online web-based system for a government agency using Java Servlet Pages, MSSQL, and Esri ArcGIS Enterprise.
- Maintained and delivered change requests for a legacy government agency system built on Laravel PHP and PostgreSQL.

Software Developer Intern | **InterXS** | Bangi, Selangor *March 2022 – July 2022*

- Developed a React Native mobile application for a community project in Bangi, supported by a PHP and MySQL backend.

Software Developer Intern | **Universiti Putra Malaysia** | Serdang, Selangor *July 2019 – September 2019*

- Developed a faculty booking system for the University using PHP, Bootstrap, jQuery and PostgreSQL.

TECHNICAL SKILLS

Backend: .NET Core, C#, VB.NET, Node.js, PHP, Laravel, Java Spring Boot, Rest API

Frontend: JavaScript, jQuery, React, React Native, Razor Pages, Bootstrap, Tailwind

Databases: SQL Server (MSSQL), PostgreSQL, MySQL, SQLite, Oracle SQL, MongoDB, Firebase

Reporting & Integration: SSRS, IBM MQ, Esri ArcGIS / GIS

DevOps (CI/CD) & Tools: Git, Docker, Postman, GitHub, GitLab

EDUCATION

Bachelor of Computer Science — Universiti Teknologi MARA (UiTM) Tapah, Perak *Aug 2022*

Concentrations: Web & System Development; Minor in AI and Data Science

Diploma in Computer Science — Universiti Teknologi MARA (UiTM) Segamat, Johor *Dec 2019*

Concentrations: Web & System Development

CERTIFICATIONS

AWS Build on ASEAN (2020) • **Intel AI Academy** (2020)
